Bob - no reflection on you - we really appreciate the work you are doing for the assessment. We have yet to determine who should attend. Two factors involved: we want to have a working session which means a small enough group to make revisions, etc. and also we have limited conference space. We will likely tie people in by conference line at certain points. I'll check with Jeff and Glenn on attendance.

Hi Sheila,

Was any decision made about this? Or I guess, alternatively, did my slowness in getting the remainder of my section written annoy enough people that I got uninvited? Others are asking for some of my time around this time and I need to let them know.

Thanks,
Bob

Subjec PLEASE RESPOND - Doodle poll for Bristol Bay Technical meeting
t:

Please follow the link below and record your availability for a technical team meeting in Seattle in January. Don't forget to SAVE your response.

Because this meeting will focus on the assessment portion of the report, we don't expect all the folks who did the characterization work to attend. However, it would be helpful to know your availability so that we can possibly connect you via teleconference for certain portions of the meeting. Thanks!
